Planting Notes:
1. It is recommended that any mulching be done immediately to prevent weed growth. The bed should be mowed to prevent weed growth.
2. The compliance for this and later phases of this conservation project is high. The planting will be done as scheduled and monitored by the Signet project. The mulch will be applied by the owner prior to planting of grasses.

Desirable Specifications:
1. The planting must be done in such a way that the soil is not compacted and the roots are not damaged.
2. The planting must be done in such a way that the soil is not compacted and the roots are not damaged.
3. The planting must be done in such a way that the soil is not compacted and the roots are not damaged.

Container-Flat and B&B Planting Techniques:

Effectiveness:
Inappropriate plantings should be removed and redone, as otherwise described above.

Container-Flat and B&B Planting Techniques:

Protective Signs:

Forest Conservation Easement
Unbearable destruction of vegetation is prohibited. Violators are subject to fine as imposed by the Forest Conservation Act of 1961.
