FOREST CONSERVATION NOTES

CONSTRUCTION PHASE:
1. The limits of the forest conservation area shall be staked and flagged.
2. A pre-construction meeting at the site should be held to review the limits of the forest conservation area.
3. Any wetland or shoreline areas shall be staked with a sign indicating that such areas are off-limits to construction.
4. Equipment, construction materials, and other materials shall be stored away from the forest conservation area.
5. At the end of the construction phase, the designer and owner shall submit a final report to the local jurisdiction.

POST-CONSTRUCTION PHASE:
1. The forest conservation area shall be restored to its original state.
2. Maintenance of the forest conservation area shall be the responsibility of the owner.
