HCSCD/MAA VEGETATIVE ESTABLISHMENT DETAILS AND SPECIFICATIONS FOR THE PROJECT WITHIN 4 MILES OF BWI AIRPORT.

**ECOLOGICAL CONSIDERATIONS**

- Laboratory investigations and analyses of the project area will be conducted to determine the presence of endangered species and other sensitive habitats.
- Mitigation plans will be developed to minimize the impact on these habitats.
- Suitable planting materials will be selected to ensure ecological compatibility with the project area.

**HYDROLOGIC CONSIDERATIONS**

- Drainage systems will be designed to prevent runoff and erosion.
- Vegetation will be selected to enhance natural drainage and reduce runoff.

**TECHNICAL DRAWINGS AND PLANS**

- All drawings and plans will be submitted to the appropriate regulatory agencies for review and approval.
- The baseline conditions will be documented prior to the implementation of any construction activities.

**QUALITY ASSURANCE AND CONTROL**

- Quality control measures will be implemented to ensure the accuracy and reliability of the work.
- Regular inspections and testing will be conducted to verify compliance with specifications.

**SCHEDULE AND TIMELINE**

- The project will be completed within the specified timeframe.
- Progress will be tracked to ensure timely completion of all tasks.

**SUSTAINABILITY AND ENERGY EFFICIENCY**

- Renewable energy sources will be integrated into the project design.
- Energy-efficient materials and practices will be prioritized to minimize environmental impact.

**CONSTRUCTION PHASES**

- Pre-construction activities will include site preparation and infrastructure development.
- Construction activities will focus on planting and installation of vegetation.
- Post-construction activities will include maintenance and monitoring of the project.

**REFERENCE DOCUMENTS**

- Refer to the attached reference documents for detailed specifications and guidelines.

**NOTES**

- All work must be performed in accordance with the approved plans and specifications.
- Any deviations from the approved plans must be communicated to the appropriate authorities for review.

HCSCD/MAA NOTES

- All proposed projects are subject to review and approval by the appropriate regulatory agencies.
- The project shall be constructed in compliance with all local, state, and federal regulations.
- The project shall be designed and constructed in an environmentally sensitive manner.

**SUPPLEMENTAL INFORMATION PLAN**

- Cypress Springs - Phase 3
- Lots 48 & 49 and Open Space Lot 40
