Simplified Forest Stand Delineation

This graphic represents a forest stand delineation on a previously developed subdivision. The property is irregularly shaped and consistent with the adjacent properties. The adjacent property lines are determined by high-research residential development, generally 1-acre lots, though some have obligations to re-establish the original development of the community previously performed in the 1970s and 1980s.

The site currently contains a single family residence with associated driveway and lawn areas. The house, which is located towards the southern end of the site, has some landscape plantings around its foundation. The site is bordered by a road, a low stone wall, a stone wall, and a small body of water.

The majority of the site is maintained as lawn. A small vegetable garden is present in the back yard. While driveway apron accenting has been placed along the southern property boundary,

No significant trees are present on the site.

There are no streams or wetlands on the property. No significant wetlands are present on the property. A small stream is located to the southeast of the site. The stream buffer is delineated on the map. The stream buffer is delineated on the map. The stream buffer extends from the water's edge to 15 feet from the property line. The map shows the stream buffer extending from the water's edge to 15 feet from the property line.

No historic cemeteries or structures are observed on the site.

The re-established forest is required to comply with the Forest Conservation Act. The site has no forested or suitable planting areas on the site. The property is to be maintained as forested. The property is to be maintained as forested. The property is to be maintained as forested. The property is to be maintained as forested.

The supplemental plan for the project is 8,204 square feet. The supplemental plan for the project is 8,204 square feet. The supplemental plan for the project is 8,204 square feet. The supplemental plan for the project is 8,204 square feet.
