STORM DRAIN STUDY AND SEDIMENT CONTROL PLAN
SECTION 3
GREEN HILL MANOR
HOWARD COUNTY, MARYLAND
SCALE: 1" = 100'
MAY, 1973
Sediment Basin & Detention Pond

General Notes:
1. All drainage and spillways shall be adequately protected against damage from storms and floods.
2. The entire area shall be well-drained and shall not accumulate water.
3. All construction work shall be in accordance with the plans and specifications.
4. The pond shall be properly maintained to ensure its proper functioning.

Consideration of the Environment
The pond shall not interfere with the surrounding environment and shall be designed to minimize any adverse impacts.
