GENERAL NOTES

1. All work shall be performed in accordance with the Howard County Road Construction Code and standard specifications.

2. All utility permanent shall be notified 24 hours in advance of construction.

3. Streets are designed for traffic speeds of 25 mph in accordance with NARCO standards.

4. All drains shall be Howard County standards unless otherwise noted.

5. All street curb returns shall have a 90° radius unless otherwise noted.

6. Storm drain inlets within right-of-way shall be backfilled and compacted in accordance with Howard County Road Construction Code and standard specifications.

7. Approximate locations of existing utilities are shown. The contractor shall take all reasonable precautions to protect the existing utilities and to maintain uninterrupted service. Any damage due to contractor negligence shall be repaired at the contractor's expense.

8. The contractor shall test all existing utilities where directed by the engineer prior to the use of any equipment or machinery in areas of existing electrical or water lines.

9. All personnel entering the storm drain structures shall have a minimum 20 feet stroke of 5000 psi.

11. Plans, specifications, and instructions shall be issued in accordance with the right-of-way and Section 4, Area 1.

12. Rip rap at 04:00 shall be removed unless otherwise noted.

13. All horizontal and vertical control are based on Maryland State Datum.

14. Seed and mulch all disturbed areas.

15. The Storm Water Management for this submission is provided by detention ponds proposed under Burleigh Manor Section 3, Area 1 and Section 4, Area 1.

16. Plan No. 1-19-72 Sheet No. 1 of 8
