ROAD PLAN AND PROFILES
RESPONSIBILITY OF CONTRACTOR - all of the following conditions shall apply to the construction for which this work is being performed.

1. The Contractor shall be responsible for the design and construction of the project.
2. The Contractor shall ensure that all work is performed in accordance with these specifications.
3. The Contractor shall be responsible for the safety of all workers on the job site.

MANAGEMENT FACILITY

1. The management facility shall be designed and constructed to meet the requirements of the specifications.
2. The management facility shall be monitored to ensure compliance with the specifications.

SUMMARY OF TEST RESULTS

1. All test results shall be recorded and filed for future reference.
2. All test results shall be reviewed by the project manager before acceptance.

OPERATION: MAINTENANCE AND INSPECTION

1. The project shall be inspected regularly to ensure proper maintenance.
2. All maintenance shall be performed by qualified personnel.

SUPPLEMENTAL SPECIFICATIONS

1. All supplemental specifications shall be incorporated into the final contract documents.
2. All supplemental specifications shall be reviewed by the project manager before final review.

EARTH FILL

1. The earth fill shall be compacted in accordance with the specifications.
2. The earth fill shall be tested for compaction according to the specifications.

CONCRETE

1. All concrete shall be placed in accordance with the specifications.
2. All concrete shall be tested for compressive strength and density.

CARE OF WATER DURING CONSTRUCTION

1. All work shall be performed in such a manner as to prevent contamination of the water supply.
2. All work shall be performed in accordance with the specifications.

STABILIZATION

1. All stabilization shall be performed in accordance with the specifications.
2. All stabilization shall be tested for effectiveness.

EROSION AND SEDIMENT CONTROL

1. All erosion and sediment control measures shall be in accordance with the specifications.
2. All erosion and sediment control measures shall be reviewed by the project manager before final approval.

LOADING AND UNLOADING

1. All loading and unloading shall be performed in accordance with the specifications.
2. All loading and unloading shall be monitored to ensure compliance with the specifications.

TRAFFIC CONTROL

1. All traffic control measures shall be in accordance with the specifications.
2. All traffic control measures shall be reviewed by the project manager before final approval.

STORAGE - MANAGEMENT SPECIFICATIONS

1. All storage and management specifications shall be incorporated into the final contract documents.
2. All storage and management specifications shall be reviewed by the project manager before final approval.

GEOLOGY

1. All geological specifications shall be incorporated into the final contract documents.
2. All geological specifications shall be reviewed by the project manager before final approval.

DRAINAGE SYSTEM

1. All drainage system specifications shall be incorporated into the final contract documents.
2. All drainage system specifications shall be reviewed by the project manager before final approval.

GEOTECHNICAL SPECIFICATIONS

1. All geotechnical specifications shall be incorporated into the final contract documents.
2. All geotechnical specifications shall be reviewed by the project manager before final approval.

SUBSURFACE WATER MANAGEMENT

1. All subsurface water management specifications shall be incorporated into the final contract documents.
2. All subsurface water management specifications shall be reviewed by the project manager before final approval.

SPECIAL CONSTRUCTION DETAILS

1. All special construction details shall be incorporated into the final contract documents.
2. All special construction details shall be reviewed by the project manager before final approval.

EARTH COVER

1. All earth cover shall be placed in accordance with the specifications.
2. All earth cover shall be tested for compaction.

CONSTRUCTION METHODS

1. All construction methods shall be in accordance with the specifications.
2. All construction methods shall be reviewed by the project manager before final approval.

SPECIAL WELDING SPECIFICATIONS

1. All special welding specifications shall be incorporated into the final contract documents.
2. All special welding specifications shall be reviewed by the project manager before final approval.

RECESSION WALLS AND FOUNDATIONS

1. All recession walls and foundations shall be designed and constructed to meet the requirements of the specifications.
2. All recession walls and foundations shall be monitored to ensure compliance with the specifications.

WATER MAINS AND SEWERS

1. All water mains and sewers shall be placed in accordance with the specifications.
2. All water mains and sewers shall be tested for leakage.

PRIVATE EASEMENTS

1. All private easements shall be in accordance with the specifications.
2. All private easements shall be reviewed by the project manager before final approval.

ELECTRICAL SYSTEMS

1. All electrical systems shall be designed and constructed to meet the requirements of the specifications.
2. All electrical systems shall be tested for safety.

PLUMBING SYSTEMS

1. All plumbing systems shall be designed and constructed to meet the requirements of the specifications.
2. All plumbing systems shall be tested for leakage.

MECHANICAL SYSTEMS

1. All mechanical systems shall be designed and constructed to meet the requirements of the specifications.
2. All mechanical systems shall be tested for efficiency.

ARCHITECTURAL SPECIFICATIONS

1. All architectural specifications shall be incorporated into the final contract documents.
2. All architectural specifications shall be reviewed by the project manager before final approval.

SITE LOCATION

1. All site location specifications shall be in accordance with the specifications.
2. All site location specifications shall be reviewed by the project manager before final approval.

SURVEY DATA

1. All survey data shall be reviewed by the project manager before final approval.
2. All survey data shall be incorporated into the final contract documents.

LANDSCAPING

1. All landscaping specifications shall be incorporated into the final contract documents.
2. All landscaping specifications shall be reviewed by the project manager before final approval.

WATER TREATMENT FACILITIES

1. All water treatment facilities shall be designed and constructed to meet the requirements of the specifications.
2. All water treatment facilities shall be monitored to ensure compliance with the specifications.

POLICY ON CONSTRUCTION MATERIALS

1. All construction materials shall be in accordance with the specifications.
2. All construction materials shall be tested for quality.

COST ESTIMATING

1. All cost estimating shall be in accordance with the specifications.
2. All cost estimating shall be reviewed by the project manager before final approval.

RISK MANAGEMENT

1. All risk management plans shall be in accordance with the specifications.
2. All risk management plans shall be reviewed by the project manager before final approval.

QUALITY Assurance

1. All quality assurance plans shall be in accordance with the specifications.
2. All quality assurance plans shall be reviewed by the project manager before final approval.

SUSTAINABILITY SPECIFICATIONS

1. All sustainability specifications shall be incorporated into the final contract documents.
2. All sustainability specifications shall be reviewed by the project manager before final approval.

SUMMARY OF SPECIFICATIONS

1. All summary of specifications shall be in accordance with the specifications.
2. All summary of specifications shall be reviewed by the project manager before final approval.

SITE SECURITY

1. All site security plans shall be in accordance with the specifications.
2. All site security plans shall be reviewed by the project manager before final approval.

CONTENT SPECIFICATIONS

1. All content specifications shall be incorporated into the final contract documents.
2. All content specifications shall be reviewed by the project manager before final approval.

PERMITTING

1. All permitting plans shall be in accordance with the specifications.
2. All permitting plans shall be reviewed by the project manager before final approval.

CLAIMS AND DISPUTES

1. All claims and disputes shall be in accordance with the specifications.
2. All claims and disputes shall be reviewed by the project manager before final approval.

LABOR AND MATERIALS

1. All labor and materials specifications shall be incorporated into the final contract documents.
2. All labor and materials specifications shall be reviewed by the project manager before final approval.

FINANCIAL MANAGEMENT

1. All financial management plans shall be in accordance with the specifications.
2. All financial management plans shall be reviewed by the project manager before final approval.

PROGRAM MANAGEMENT

1. All program management plans shall be in accordance with the specifications.
2. All program management plans shall be reviewed by the project manager before final approval.

LEGAL REQUIREMENTS

1. All legal requirements shall be in accordance with the specifications.
2. All legal requirements shall be reviewed by the project manager before final approval.

ENVIRONMENTAL MANAGEMENT

1. All environmental management plans shall be in accordance with the specifications.
2. All environmental management plans shall be reviewed by the project manager before final approval.

ARCHIVAL SPECIFICATIONS

1. All archival specifications shall be incorporated into the final contract documents.
2. All archival specifications shall be reviewed by the project manager before final approval.

ARCHIVES MANAGEMENT

1. All archives management plans shall be in accordance with the specifications.
2. All archives management plans shall be reviewed by the project manager before final approval.

ARCHIVAL PRESSURE SPECIFICATIONS

1. All archival pressure specifications shall be incorporated into the final contract documents.
2. All archival pressure specifications shall be reviewed by the project manager before final approval.

ARCHIVAL TEMPERATURE SPECIFICATIONS

1. All archival temperature specifications shall be incorporated into the final contract documents.
2. All archival temperature specifications shall be reviewed by the project manager before final approval.

ARCHIVAL HUMIDITY SPECIFICATIONS

1. All archival humidity specifications shall be incorporated into the final contract documents.
2. All archival humidity specifications shall be reviewed by the project manager before final approval.

ARCHIVAL LIGHT SPECIFICATIONS

1. All archival light specifications shall be incorporated into the final contract documents.
2. All archival light specifications shall be reviewed by the project manager before final approval.

ARCHIVAL SECURITY SPECIFICATIONS

1. All archival security specifications shall be incorporated into the final contract documents.
2. All archival security specifications shall be reviewed by the project manager before final approval.

ARCHIVAL MANAGEMENT SPECIFICATIONS

1. All archival management specifications shall be incorporated into the final contract documents.
2. All archival management specifications shall be reviewed by the project manager before final approval.

ARCHIVAL RESEARCH SPECIFICATIONS

1. All archival research specifications shall be incorporated into the final contract documents.
2. All archival research specifications shall be reviewed by the project manager before final approval.

ARCHIVAL PRESERVATION SPECIFICATIONS

1. All archival preservation specifications shall be incorporated into the final contract documents.
2. All archival preservation specifications shall be reviewed by the project manager before final approval.

ARCHIVAL INTEGRITY SPECIFICATIONS

1. All archival integrity specifications shall be incorporated into the final contract documents.
2. All archival integrity specifications shall be reviewed by the project manager before final approval.

ARCHIVAL ACCESSIBILITY SPECIFICATIONS

1. All archival accessibility specifications shall be incorporated into the final contract documents.
2. All archival accessibility specifications shall be reviewed by the project manager before final approval.

ARCHIVAL CONVERSION SPECIFICATIONS

1. All archival conversion specifications shall be incorporated into the final contract documents.
2. All archival conversion specifications shall be reviewed by the project manager before final approval.

ARCHIVAL UTILIZATION SPECIFICATIONS

1. All archival utilization specifications shall be incorporated into the final contract documents.
2. All archival utilization specifications shall be reviewed by the project manager before final approval.

ARCHIVAL INVENTORY SPECIFICATIONS

1. All archival inventory specifications shall be incorporated into the final contract documents.
2. All archival inventory specifications shall be reviewed by the project manager before final approval.
