**PERMANENT SEEDING NOTES**

*Apply to project for covered areas not subject to maintenance.*

**SEEDING MATERIALS**
- **Green Valley** 70% Tolerance 30% pallet Mix
- **Red Valley** 70% Tolerance 30% pallet Mix
- **Bermuda** 70% Tolerance 30% pallet Mix

**SEEDING RATE**
- **Green Valley** 70% Tolerance 30% pallet Mix
- **Red Valley** 70% Tolerance 30% pallet Mix
- **Bermuda** 70% Tolerance 30% pallet Mix

**AREA**

**TYPICAL SEEDING NOTES**
- **Temporary Seeding Notes**: Seeded under existing conditions, material, soil, or other acceptable materials before seeding 6 to 8 weeks before final grading.

---

**TEMPORARY SEEDING NOTES**

**SEEDS**
- **Green Valley** 70% Tolerance 30% pallet Mix
- **Red Valley** 70% Tolerance 30% pallet Mix
- **Bermuda** 70% Tolerance 30% pallet Mix

**PLANTING DATES**
- **Spring**: March 1 to April 30
- **Summer**: May 1 to August 31

**MACHINE SIZES**
- **Small**: Under 500 psi
- **Medium**: 500 psi to 1000 psi
- **Large**: Over 1000 psi

**SHIELDING**
- **All areas** have shielding in accordance with applicable standards.

---

**CONSTRUCTION SEQUENCE**

1. Obtain a grading permit.
2. Install all surface and subsurface control devices and subdrains.
3. Rough grade site.
4. Center of storm drainage structures, including curbs.
5. Center of sidewalks.
6. Center of streets.
7. Center of site.
8. Install all utilities.
