FOREST TREE PROTECTION AND MANAGEMENT NOTES

1. Tree protection devices shall be installed prior to any grading or land clearing.
2. After the boundaries of the retention area have been staked and flagged, and any grading or construction activity has been completed, a pre-construction meeting shall take place to review the forest conservation plan.
3. No grading, excavation, or construction shall begin in the retention area unless all tree protection devices have been installed.
4. All grading, excavation, and construction activity shall be limited to the area designated in the forest conservation plan.
5. All tree protection devices shall remain in place until the retention area is completed.
6. All tree protection devices shall be maintained and replaced as needed.
7. All tree protection devices shall be removed from the site upon completion of all grading, excavation, and construction activity.

NARRATIVE

The preliminary forest conservation plan is presented in accordance with the Howard County Forest Conservation Manual and the Howard County Forest Conservation Act.

The existing site consists of 40.5 acres of which 0.8 acres is currently forested. The site contains 1.1 acres of 150-year floodplain and 15.3 acres in preservation zones. The land use on a portion of parcel A will remain unchanged to be deeded from these figures to obtain a net tract area of 24.2 acres.

The protection required is a 50-foot riparian forest. The afforestation required is 4 acres net and will be provided otherwise. The entire portion of the afforestation area is on Lot 7 and on Parcel F of Woodlands Grant 1. See Exhibit to SP 49, BY CHARLES.

CONSTRUCTION SEQUENCE

1. Obtain grading permits.
2. Schedule pre-construction meeting with developers representative and the Howard County Planning and Zoning Commission.
3. Prior to any grading, excavation, or construction activity, all tree protection devices shall be installed and marked.
4. Prepare preliminary tree protection plan for review by Howard County Planning and Zoning Commission.
5. Complete all details on forest conservation plan.
6. Schedule pre-construction meeting with developers representative, Howard County Planning and Zoning Commission, and Howard County Sheriff's Office.
7. Conduct pre-construction meeting with developers representative, Howard County Planning and Zoning Commission, and Howard County Sheriff's Office.
8. Inspect and maintain tree protection devices for a 3-year period.
